

TOREM, SOUTH PACIFIC REDWOOD

Hardwood Decking & Siding

WHAT IS SOUTH PACIFIC REDWOOD?

South Pacific Redwood, also known as Manilkara, is a lustrous reddish-brown hardwood that is known for its strength and durability. Coming primarily from South East Asia, South Pacific Redwood is part of a wide genus that can be found around the world in various locations. South Pacific Redwood is an excellent cost-effective alternative to Ipe with its similar hardness and density.

THE BETTER INVESTMENT

Those who are looking for a wood that is rich in color and built to last, look no further than South Pacific Redwood. With a 25 year warranty and a service life expectancy of 50+ years, South Pacific Redwood is suitable for all outdoor applications. This particular species will readily accept most oil-based stains and finishes.

SUSTAINABLE AND CERTIFIED

Our stock of South Pacific Redwood is Lacey Act approved and comes with a V-Legal license which is at the heart of Indonesia's timber legality verification system.
