

**Ambara®**

A Higher Degree of Wood™

" Ambara® is simply stunning, uniform, and easy to work with. The finished product is breath-taking! "

# 30 years of Ambara®

Ambara® has been a popular thermally modified wood option in Europe for over 30 years and is well known as an excellent choice for siding, ceiling, trim, beams, and pergolas.

# 10 years of Exposure on Ambara® Siding

\*After 10 years exposure

Ambara's® warm tones fade to silver when left unfinished over time.

Both photos are of the same project, roughly 10 years apart.

\*Newly Installed
